

ESCUELA TECNICO MAYA

Field Report #38 June 20 - July 03, 2011

- The patio roof for Vo-Tech II is complete providing extra rain-protected work space!(1)
- Work continues on the Center Bodega roof in preparation for the glass bottle brick walls for the second story loft. (2)
- School students from Chimaltenango lent a hand with our awesome volunteer crew to plant the new gardens, located adjacent to the composting latrine. (3)
- Water lines were laid to connect Vo-Tech II to the rain water cistern.
- The Guatemalan crew is working hard to plaster the interiors of Vo-Tech II. (4)
